

Andrés Felipe Suárez Villegas

Senior Software & Solutions Engineer · Node.js · TypeScript · AWS · AI Orchestration · Scalable Cloud Architectures
Cali, Colombia | Remote | andresfelipe9619@gmail.com

PROFESSIONAL SUMMARY

Results-driven **Senior Full-Stack Engineer** with **9+ years of experience** delivering innovative, secure, and scalable solutions across SaaS, Fintech, and Health Tech. Specialist in **Node.js/TypeScript** and **AWS cloud architecture**, with deep expertise in leading production systems within **SOC 2-regulated environments**. Proven track record in **AI orchestration**, technical mentorship, and navigating high-stakes **investor due diligence** for venture-backed startups.

KEY ACHIEVEMENTS

- **Infrastructure Hardening (SOC 2):** Redesigned AWS security controls and secure SDLC governance, reducing platform vulnerabilities by **90%**.
- **Cloud Cost Optimization:** Achieved a **~30% reduction in AWS spend** through architectural right-sizing, observability improvements, and CI/CD optimization.
- **AI & Automation Leadership:** Engineered enterprise-grade AI workflows using **AWS Bedrock, LangChain, and multi-model orchestration** to automate complex vendor risk assessments.
- **Technical Due Diligence:** Served as the primary technical lead during investor audits, successfully securing funding rounds through deep-dive platform reviews.
- **Global Impact:** Delivered **30+ production systems** across **11 countries** and **15 industries**, demonstrating extreme cross-domain adaptability.

PROFESSIONAL EXPERIENCE

Turnstile | *Full Stack Engineer (Contract)* | Sept 2025 – Feb 2026

- **MVP to Market-Fit:** Partnered with technical founders to build a category-defining SaaS product, translating complex logic into a scalable **React/Node.js stack**.
- **Third-Party Orchestration:** Engineered mission-critical integrations with **Stripe, Twilio, Segment, and Salesforce** to drive product functionality.
- **Scalable Backend Architecture:** Designed robust **REST/GraphQL APIs** and **PostgreSQL schemas** optimized for high-velocity startup iterations.

Brooklyn Vendor Assurance | *Engineering Lead / Lead Developer* | Dec 2018 – Apr 2025

- **GenAI Integration:** Led the pioneering integration of generative AI workflows using **AWS Bedrock and Anthropic Claude** to automate enterprise risk evaluations.
- **Security Orchestration:** Managed complex AWS environments using **CDK and CloudFormation**; implemented **AWS GuardDuty and KMS** to ensure SOC 2 compliance.
- **Technical Leadership:** Acted as core maintainer and mentor, establishing **SDLC governance** and improving team shipping velocity.

Usermuse.AI | *Senior Software Engineer (AI Specialist)* | Oct 2024 – Jan 2025

- **Intelligent AI Engine:** Developed a requirement-gathering engine using **LangChain**, focusing on prompt deduplication and automated re-prompting logic.

- **Rapid Prototyping:** Integrated **OpenAI, Anthropic, and Gemini APIs** to accelerate discovery phases while maintaining enterprise-grade code quality.

Atentamente | *Platform Architect & Data Engineering Consultant* | 2023

- **Data Consolidation:** Led the unification of fragmented data sources into a centralized, **AWS-based platform** as a "single source of truth".
- **Infrastructure Design:** Designed **PostgreSQL (Amazon RDS)** infrastructure and built internal management dashboards using **Strapi**.

Kuno Digital | *Senior Technical Consultant* | 2023

- **Marketing Automation:** Architected complex integrations for **WhatsApp, Sales Manago, and Kommo CRM** using **Make (Integromat)**.
- **Technical Governance:** Served as the primary authority for system integrations and mentored junior technical staff.

Proaxdata | *Lead GIS Solutions Architect* | 2023

- **Geospatial Visualization:** Designed visualization platforms for mining and real estate, implementing **Mapbox performance optimizations**.
- **Workflow Automation:** Built high-efficiency automation workflows using **Google Apps Script**.

ADDITIONAL PROJECT HIGHLIGHTS

- **Factoring Abogados (2022):** Designed a secure multi-tenant judicial case automation platform using **AWS Amplify, Cognito, and Lambda**.
- **Pontificia Universidad Javeriana (2023):** Stabilized a mobile application mid-development, implementing **Biometric authentication** on Android/iOS.
- **TODOSURF (2019):** Developed a real-time surf conditions app using **React and Leaflet**, aggregating multiple public environmental APIs.

TECHNICAL SKILLS

- **Backend:** Node.js (9+ yrs), TypeScript (Expert), Express, NestJS, GraphQL, REST.
- **Frontend:** React (8+ yrs), Next.js, React Native, Redux, D3.js.
- **Cloud (AWS):** CDK, Lambda, API Gateway, RDS, DynamoDB, S3, Cognito, GuardDuty.
- **AI/Automation:** AWS Bedrock, LangChain, Prompt Engineering, OpenAI/Anthropic/Gemini.
- **Data & GIS:** PostgreSQL, MySQL, MongoDB, Mapbox, Leaflet.
- **Governance:** SOC 2 Type II, HIPAA-aware, RBAC, CI/CD (GitHub Actions, Docker).

EDUCATION & CERTIFICATIONS

- **Technologist in Information Systems** | Universidad del Valle (2015–2021)
- **English Proficiency (B2/C1)** | Centro Cultural Colombo Americano
